## **BEST AVAILABLE IMAGES**

Defective images within this document are accurate representations of the original documents submitted by the applicant.

Defects in the images may include (but are not limited to):

- BLACK BORDERS
- TEXT CUT OFF AT TOP, BOTTOM OR SIDES
- FADED TEXT
- ILLEGIBLE TEXT
- SKEWED/SLANTED IMAGES
- COLORED PHOTOS
- BLACK OR VERY BLACK AND WHITE DARK PHOTOS
- GRAY SCALE DOCUMENTS

**IMAGES ARE BEST AVAILABLE COPY.**

**As rescanning documents *will not* correct images,  
please do not report the images to the  
Image Problem Mailbox.**

29B

Technical drawing of a mechanical assembly, likely a pump or motor component, showing a cross-sectional view. The drawing includes several numbered parts:

- 102: A central shaft or rod passing through the assembly.
- 104: A circular component, possibly a rotor or impeller, mounted on the shaft.
- 106: A circular component, possibly a stator or housing, surrounding the rotor.
- 110: A central circular feature, possibly a bearing or seal.
- 112: A component, possibly a bearing or seal, located near the center.
- 114: A component, possibly a bearing or seal, located near the center.
- 116: A component, possibly a bearing or seal, located near the center.
- 122: A component, possibly a bearing or seal, located near the center.
- 124: A component, possibly a bearing or seal, located near the center.
- 130: A component, possibly a bearing or seal, located near the center.
- 132: A component, possibly a bearing or seal, located near the center.
- 134: A component, possibly a bearing or seal, located near the center.
- 136: A component, possibly a bearing or seal, located near the center.

The drawing is a technical illustration of a mechanical assembly, showing a cross-sectional view of a component. The component is a rectangular block with a central circular opening. Inside this opening is a smaller circular component, possibly a rotor or impeller, which is mounted on a central shaft. The shaft passes through the center of the assembly. Surrounding the central shaft are several concentric circular components, likely stator or housing parts. The drawing includes several numbered labels (102, 104, 106, 110, 112, 114, 116, 122, 124, 130, 132, 134, 136) pointing to specific parts of the assembly. The drawing is a technical illustration of a mechanical assembly, showing a cross-sectional view of a component. The component is a rectangular block with a central circular opening. Inside this opening is a smaller circular component, possibly a rotor or impeller, which is mounted on a central shaft. The shaft passes through the center of the assembly. Surrounding the central shaft are several concentric circular components, likely stator or housing parts. The drawing includes several numbered labels (102, 104, 106, 110, 112, 114, 116, 122, 124, 130, 132, 134, 136) pointing to specific parts of the assembly.
